Re: Outstanding Bill for Diesel Fuel Cleanup
1533 E. Battlefield

Attached please find billing data and correspondence regarding this spill. To date we have not received payment for these costs. Would you please give us some assistance in collecting. Incidentally, our personnel, in contacts with Leaseco, found the address for Liberty Contract Carriers is the same as that for Leaseco.

Attention: Service Central - Bill Hoskins

Dear Sirs:

On July 24, 1981 I was dispatched to a spill incident involving truck #42103 owned by your company in which several gallons of diesel fuel was spilled onto the paved lot at the rear of the Service Merchandise Store at 1533 E. Battlefield here in Springfield, Missouri.

The Springfield Fire Department was also dispatched to the spill site but addition of water would have simply washed the fuel into a new sanitary sewer line presently under construction and could have presented further legal and environmental problems.

Spill cleanup was attained by absorption with dry sawdust by the Springfield Public Works Department. By authority of city ordinance the City of Springfield is required to seek recovery of the costs for labor and materials used in the spill abatement effort. A summary of these costs follows:

Labor:

Street workers plus Water Pollution Control Inspector III	=	\$218.14
---	---	----------

Materials:

4.5 tons sawdust @ \$10.00/ton	=	\$ 45.00
--------------------------------	---	----------

Equipment:

1 truck - 26 miles @ \$0.50	=	13.00
1 truck - 8 miles @ \$0.65	=	5.20
1 street sweeper for 2 hours @ \$18.00/hr.	=	36.00

Total	=	\$317.34
-------	---	----------
